

#### **IV     REMARKS**

As noted hereabove, Applicant's amendments are in support of Applicant's election of the Group II set of claims. Applicant's amendments are also responsive to the requirement under 35 U.S.C. Section 121 that Applicant elect a single species of a series of certain genres referenced for claims 1–48. Applicant has not amended claims 4, 16 and 40 in this regard because the genus or Markush Group of species represents subject matter excluded from the claim.

Support in the specification and existing claims for Applicant's amendments is identified in the following **TABLE**.
